## MANAGEMENT DISCUSSION AND ANALYSIS

### Economic Review

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF). According to IMF, India's growth is expected to rebound to 7.2 percent in 2017-18 and further to 7.7 percent in 2018-19 after the "temporary disruption" caused by cash shortages accompanying the Currency exchange initiative are expected to gradually dissipate in 2017 as cash shortages ease. Such disruptions would also be offset by tailwind from favorable monsoon season and continued progress in resolving supply-side bottleneck. According to IMF the investment recovery is expected to remain modest and uneven across sector as de-leveraging take place and industrial capacity utilisation pick up. While Central Statistics Organisation (CSO) has estimated India's growth at 7.1 percent this fiscal, IMF are predicted it to decelerate to 6.8 percent due to demonetization.

### Industry Structure and Development

#### Agriculture Industry

Agriculture plays a vital role in India's economy. Over 58 per cent of the rural households depend on agriculture as their principal means of livelihood. Agriculture, along with fisheries and forestry, is one of the largest contributors to the Gross Domestic Product (GDP). Indian agriculture is benefitting huge from rising external demand and the sector's wider participation in the global economy.

As per estimates by the Central Statistics Office (CSO), the share of agriculture and allied sectors (including agriculture, livestock, forestry and fishery) is expected to be 17.3 per cent of the Gross Value Added (GVA) during 2016-17 at 2011-12 prices.

India is the largest producer, consumer and exporter of spices and spice products. India's fruit production has grown faster than vegetables making it the second largest fruit producer in the world. India's horticulture output, comprising fruits, vegetables and spices, has reached to a record high of 287.3 million tonnes (MT) in 2016-17. It ranks third in farm and agriculture outputs. Agricultural export constitutes 10 per cent of the country's exports and is the fourth-largest exported principal commodity. The agro industry in India is divided into several sub segments such as canned, dairy, processed, frozen food to fisheries, meat, poultry, and food grains.

#### Market Size

Over the recent past, multiple factors have worked together to facilitate growth in the agriculture sector in India. These includes growth in household income and consumption, expansion in the food processing sector and increase in agricultural exports. Rising private participation in Indian agriculture, growing organic farming and use of information technology are some of the key trends in the agriculture industry.

India's GDP is expected to grow at 7.1 percent in financial 2016-17, led by growth in private consumption, while Agriculture GDP is expected to grow above-trend at 4.1 percent to Rs 1.11 trillion (US\$ 1,640 billion). India's food grain production is expected to be 271.98 MT in 2016-17. Production of pulses is estimated at 22.14 MT. India Export of basmati rice may rise to Rs 22,000-22,500 crore (US\$ 3.42-3.49 billion) with volume to around 4.09 MT in 2017-18. Wheat production in India is expected to touch all time high of 96.6 MT during financial year 2016-17. Groundnut export from India is expected to cross 700,000 tones during FY 2016-17 as compared to 537,888 tones in FY 2015-16, owing to expected 70 percent increase in crop size due to good monsoon and higher demand due to competitor such Chile shifting focus on US Market. Spices export from India grew by 9 per cent in volume and 5 per cent in value year-on-year to 660,975 tones.

#### Investments

Several players have invested in the agricultural sector in India, mainly driven by the government's initiatives and schemes. According to the Department of Industrial Policy and Promotion (DIPP), the Indian agricultural services and agricultural machinery sectors have cumulatively attracted Foreign Direct Investment (FDI) equity inflow of about US\$ 2,315.33 million from April 2000 to December 2016.

#### Road Ahead

The agriculture sector in India is expected to generate better momentum in the next few years due to increased investments in agricultural infrastructure such as irrigation facilities, warehousing and cold storage. Factors such as reduced transaction costs and time, improved port gate management and better fiscal incentives would contribute to the sector's growth. Furthermore, the growing use of genetically modified crops will likely improve the yield for Indian farmers.

National Institution for Transforming India Aayog (NITI Aayog), has proposed various reform in India's agriculture sector, including liberal Contract farming, direct purchase from farmer by private player direct sale by farmer to consumer, and single trader license, among other measure, in order to double rural income in next five year. The Maharashtra State Agriculture Marketing Board (MSAMB) has operationalized 31 farmers to consumer market in the state, and plan to open 100 more such market in the future which would facilitate better financial remunerations for the farmers by allowing them to directly sell their produce in open markets. India is expected to be self-sufficient in pulses in the coming few years due to concerted efforts of scientists to get early-maturing varieties of pulses and the increase in minimum support price

We have audited the Internal Financial Controls over financial reporting of ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the criteria established by the Company considering the size of company and essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("the Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting includes obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls were operating effectively as at March 31, 2017, based on the assessment of essential components of internal controls over financial reporting stated in the Guidance Note carried out by the Company and representation to that effect is made available to us by the Company.
